

## Web Design

#### Website development

I made responsive web pages with payment options if needed for more complex projects with HTML, CSS, JS, PHP, Ajax, or Laravel. From small branding sites and commercial landing pages to e-commerce portals.

## App Development

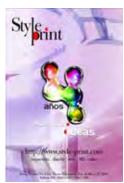

#### Android and iOS app development.

I develop Android or iOS apps with multiple functions from scratch or with app makers, depending on your goals and budget.

## Graphic Design

Creative art direction to design flyers, posters, menus, brochures, billboards, logos, magazines, and any material for digital printing or traditional offset printing.

# Print Design

### Art design for editorial projects

I do catalog design for footwear, fashion, cosmetics, and many others.
